Data Quality & Methodology

Collection Method:

- Source: LinkedIn Jobs (public listings)
- Scraping Tool: Python + Playwright (headless browser automation)

- Date Collected: December 30, 2025

Enrichment:

- Company size/revenue: LinkedIn company pages + public databases
- Tech stacks: NLP extraction from job descriptions
- Funding data: Public records and estimates

Quality Control:

- ☑ All jobs manually verified (no masked/incomplete data)
- ☑ Active job URLs confirmed at scrape time
- ☑ Company LinkedIn profiles validated
- ☑ Duplicate postings removed

Deliverables

1. **SaaS_Jobs_CLEAN_FINAL.xlsx** - Full dataset (Excel)
2. **SaaS_Jobs_CLEAN_FINAL.json** - Machine-readable format
3. **This Report** - Executive summary

Total Verified Records: 39

Report Valid As Of: December 30, 2025

Data extracted from publicly available LinkedIn job postings for business intelligence purposes.
